1. You may be interested in the attached memo, dated 30 June, to the members of the CIACG. As you know, all the members of the Intelligence Community are represented in the Group.

2. We shall be meeting on 13 July to discuss my proposal for a study project to try to bring clearer definition to the needs for intelligence on China now and in the future. Since this relates very closely to some of the matters discussed in OPPB's Working Paper, you may wish to attend or to send someone else to monitor the meeting. If so, you are most cordially welcome.
